

These instructions related to FSIS Directive 9900.5 Rev. 2 that was released on the 21st of December 2020. Section E Procedures for Correcting Shipping Marks when Using Barcodes, Part 4 / b states "*A report provided by the exporters that links the barcodes to the lot identified of the foreign inspection certificate*". Meat messaging provided that report by searching a single barcode and returning the full consignment list of carton barcodes.

If the consignment is an eMTC the section to complete the Attestation for the eMTC will be displayed. If the message is an export or domestic message this section will not be displayed as the Attestation is not required.

The instructions below are for the Meat Messaging web site search

This action may include returning the consignment or obtaining new consignment message for the consignment. Once a consignment has been verified as correct and meeting all the requirements defined in the company Approved Arrangements and related work instructions, the Attestation can be completed. The Company name, Establishment Number, Name of Person competing the Attestation and the date and times are prefilled on the page. The Attestation needs to be selected and would normally be selected as "5-Consignment Accepted".

If all details are correct and the Attestation selected click the green "Complete Attestation" button.
